

SIGRIST-PHOTOMETER – 40 years in the German market

The SIGRIST-PHOTOMETER GmbH celebrates a special jubilee: its 40 year presence on the market. As such the company impressively positions itself as an experienced and successful business in the demanding market for photometers. Continuous growth thanks to its many satisfied customers is a result of the superior product quality and the service. As a matter of course the Swiss head office will continue supplying top innovations to secure and improve the market position.

The market in Germany is served for many years by the celebrating company and the north-German ICT. Both operate successfully in the fields of potable water, beverages, tunnels, emissions and process and are well respected as competent contacts. Highly educated teams cover projects from consulting, commercial processing, commissioning and maintenance.
